**Growing Health-Promoting Hawaiian Plants**  
**Thursday June 8, 2017 @ 10:30 am**

The use of plants in healing has a long history in Hawaiian culture. Which of these plants are the most important? How best to grow them? These are the topics for Dr. Reid's presentations. She will bring examples of the living plants for identification.

Dr. Susanna Reid is a Naturopathic Physician focusing on Woman's Health as well as a Master Gardener. Join us as we dig into the healing properties that can be found in our garden.

Program schedule is subject to change. Contact the hosting library 10 days in advance to request a sign language interpreter or if special accommodations are needed. For a list of upcoming library events, visit [www.librarieshawaii.org/events](http://www.librarieshawaii.org/events)
